

# RISE!

- Reimagining and Innovating Strategies for Enrollment

## Academic & Workforce Programs

Co-Chairs: Lisa Santalis & Charles McGinnis

# Academic & Workforce Programs

---

## Guiding Questions:

1. What trends or directions are you seeing in programming (Academic or Workforce) that would lead to increasing and or sustaining enrollment at WCC?
2. From your perspective, what are the characteristics that make a program meaningful or successful?  
How do we implement these ideas into Academic or Workforce programs?
3. With the coming decrease in first time college students (recent HS grads), how do we attract non-traditional students?
