

## Adding the Library Wireless Printer (Apple Mac OS X ver10.4.11)

1. Open Print & Fax
  - a. Click Apple icon, select System Preferences, and then Print & Fax.
2. Click on the '+' button to add the printer (under the Printing option).
3. In the Printer Browser, under IP Printer, select "Internet Printing Protocol – IPP" for the 'Protocol:' option.
4. For 'Address:' type "180.101.8.196" (without the quotes).
5. You can leave 'Name:' empty (it will be labeled with the address).
6. For 'Print Using:' select "Generic PostScript Printer".
7. Click 'Add'.

You will now have a printer named **180.101.8.196** in your printer list. This printer will not need to be reinstalled unless removed by you.

**LOCATION:** The Printer is located in the Library at the 1<sup>st</sup> Floor Reference Desk.

**THIS WIRELESS PRINTER IS OFFERED STRICTLY AS A COURTESY TO OUR STUDENTS. Westchester Community College Information Technology Policy states that Westchester Community College Technical Support DOES NOT SUPPORT any non-WCC Hardware. If you cannot connect the wireless printer to your laptop following these instructions, you will have to use our networked equipment.**

**Thank You.**
