## MLA Citation FAQs

### Setting up a Works Cited page (See sample at bottom of previous page):

The title of the page is: Works Cited. Title is centered and in the same font and size as your paper's text.

Create a citation for each source referred to in your text using the "MLA--Guide to Citation Format."

All citations go in one alphabetical list alphabetized by the first word of the citation.

Entire page is evenly double spaced.

Each citation begins at the margin. All other lines that belong to that citation are indented 1 inch.

### Parenthetical citation or in text citation:

After a quote, fact or idea from a source, add a reference to the citation for that source on your Works Cited page.

Format: (first word of citation page number if relevant) Ex: (Zeinert 234)

There are many variations according to the wording of your text. For details, see Werner, Jim. "In-line (Parenthetical) citation" available online (from Library Home page click Citations—Citations—Inline (Parenthetical) Citation), at the Library Reference desk and at the Writing Tutorial.

### Alphabetization questions:

If the title begins with "a", "an" and "the": Alphabetize by the second word.
