Six levels of ESL instruction are offered. Each level provides balanced instruction and active practice in all English language skills: listening, speaking (including pronunciation), standard grammar, reading, and writing. New students take an examination to determine the level at which they begin study. Our English-only environment for all activities promotes maximum learning. Instructors are professionals in TESOL (Teaching English to Speakers of Other Languages). Our courses are also offered in Fall (Jan.-Dec.) and Spring (Jan.-Aug.).

5 days, Mon-Fri. This 15-hour per week course allows motivated learners of English to advance rapidly, starting at any level from beginner to advanced. The Intensive English Program meets the needs of serious learners, such as preparation for university study, or to increase career possibilities. All students take three classes: Intensive Grammar & Reading 2 days per week (M/Th), Intensive Listening, Speaking & Pronunciation 2 days per week (T/F) and Intensive Writing 1 day per week (W). A placement test is required of all new students. Accent on Fluency, open to all IEP students, supplements the Intensive English Program with an additional 3 hours per week of instruction and practice in one or more particular skill or content areas. Students who have F-1 status (have an I-20 form) meet the full-time study requirement by enrolling in Accent on Fluency or any other ELI approved non-credit ESL course meeting at least 3 hours per week.

Writing for Little Ones: Ages Baby to Seven

Writing for the very littlest readers is a special challenge. It requires a way of thinking about children: what they believe and know and what they don't yet know. It involves seeing the world from their unique perspective, even understanding how being little alters their perception of the world. To write for children the author must entertain and guide, and balance between adult communications skills and the child's world; develop and polish your own work for very young children.

NATURE & THE ENVIRONMENT

Environmental Education and Conservation

A Partnership between the College and Westmoreland Sanctuary

Westmoreland Sanctuary is a nature center and wildlife preserve located in Mt. Kisco, serving the Westchester community and beyond. Founded almost 60 years ago, Westmoreland Sanctuary's ever expanding tracts of land now consist of 640 acres of year-round beauty and 7.5 miles of the finest hiking trails in Westchester. It's a place where wild bird and animal life flourish; a place where native flowers, shrubs, plants and trees are cherished, protected and preserved. It's also a place to simply come, enjoy and reconnect with nature, and maybe even yourself.

The health of our environment and natural world depends on a committed generation of today to pass the torch of appreciation, understanding, and respect of the natural world to future generations. Central to Westmoreland Sanctuary's mission is offering environmental education and conservation programs to all. While touching the lives of 12,000 young students each year with certified environmental programming, Westmorland staff also conducts programs for adults that are both wide and varied. in partnership with Phillipse Manor Hall

Currently the oldest standing building in Westchester, the Manor served as the first City Hall of Yonkers, bridging Yonkers' humble rural beginnings to its industrial heyday. Sitting next to the recently daylighted Saw Mill River in Van der Donck Park, it is home to one of only five collections of U.S. Presidential Portraits in the country, and serves as a museum of history, art and architecture, as well as host to community organizations and meetings, educational programs, a community art gallery and many community oriented special events. Visit them at nysparks.com/historic-sites/37/details.aspx or call 914-965-4027.
