

Drawing by Betsy Glass

Drawing
A Visual Language Anyone Can Learn!

First Mainstream Art Exhibit

By Students of
See It, Draw It!

Westchester Community College
Fine Arts Gallery

The exhibit traces the progression of learning how to draw, and is as much about the joy of creating as it is about the works themselves. No matter what age, it's never to late to learn to draw.

Mixed media, including graphite pencils, colored pencils, water-color pencils, ink and pastels will be featured.
