Go Green!
The Science of Forensics: What’s Behind CSI?:
The Scientist as Detective:
The Scientific Method:
The World of Emergency Medicine
AFTERSCHOOL SCIENCE ACADEMY

Anthropology: Mysteries of the Past  CE-HIST 2037OS  #83655
Do you want to explore the world like Indiana Jones? Do you ever wonder about how people lived a long time ago? Through hands-on activities, students will explore how archaeologists are able to piece together the mysteries of the past. Using technology as a guide, students will travel through time to see ancient civilizations, uncover fossils and discover how certain cultures of the world have migrated and changed. This course is for middle school students grades 5-8.
12 Thurs., Sept. 18-Dec. 11 (skip Nov. 27), 3:30-5:00 pm
$180

Oceanography: Diving in with NautilusLive  CE-SCI 2024OS  #83656
Investigate the underwater world of the Black and Mediterranean Seas. Using a direct link with the ship (online), students will interact with scientists as they solve the puzzles of the underwater world. Some topics include: underwater temperature and pressure, ROV’s and how they explore the depth, ocean currents and tides. Students will also learn about mapping the ocean bottom, tectonic forces and marine animals. This course is for middle school students grades 5-8.
12 Tues., Sept.16-Dec. 2, 3:30-5:00 pm,
$180

SUMMER SCIENCE ACADEMY (OFFERED DURING SUMMER SEMESTER ONLY)

Morning Classes
Intro to Human Anatomy for ages 8-12
Using skeletons and models, students explore basic human anatomy, concentrating on the ways in which body parts fit together to influence how we move, function and carry out every day physiologic processes.

Go Green! For ages 8-12
This class will infuse the study of science and art. Students will engage in hands-on activities and art projects, while raising awareness about environmental issues. The students will create projects that encourage them to think critically about recycling, conservation, our world and the environmental footprint that is being left behind.

The Science of Forensics: What’s Behind CSI? For ages 13-17
Ever wonder what goes on behind the scenes at CSI? Here’s your chance to become an investigator, explore mock crime scenes, collect evidence, and undercover hidden clues.

Afternoon Classes
The Scientist as Detective—for ages 8-12
Students will learn how to problem solve and investigate scientific issues. They will determine what questions to ask, what procedures to follow, how to collect, organize and interpret data based on their experiments.

The Scientific Method—for ages 9-12
This class will provide the opportunity for students to ask questions, form hypotheses, design & perform experiments, make observations, collect data, & draw conclusions.

The World of Emergency Medicine – for ages 13-17
Come and explore the responsibilities & rewards of being an emergency medicine professional.

For those who select a day-long experience, a 30-minute supervised lunch is scheduled between morning and afternoon sessions (student-provided lunch).

For more information about youth science programs, please call 914-606-7400.
APPLICATION

Section I. Personal Information

Name:

Address:

Home Phone:        Cell Phone:

Email:         Social Security Number

Date of Birth: MM/DD/YYYY

Are you a U.S. Citizen? □ Yes □ No
Do you have a permanent resident card? □ Yes □ No
Authorization to work or stamped passport? □ Yes □ No
