Dear Westchester Friends and Neighbors,

Welcome to Westchester Community College's Division of Workforce Development and Community Education Spring 2022 Catalog. I invite you to consider taking care of your own mind, body, and spirit by enrolling in one of our spring offerings.

Work and learning environments do not look the same today as they did in 2021. For more than a year, we have been managing our professional and personal lives with new processes and customs—all in an effort to keep safety and health as our number one priority. At Westchester Community College, we look to January as an opportunity to re-emerge from a mostly remote environment to one that blends remote instruction with opportunities to engage safely in person.

We have learned what works well in a virtual environment and where we simply cannot replace the power of learning in person. That is why this spring our offerings will include a combination of remote and in-person classes. We continue to offer a mix of career and work-related opportunities as well as options for your cultural and leisure-time enrichment. We continue to offer classes on your schedule—day, evenings, and weekends. Whether in person or via Zoom, our experienced and professional instructors have prepared well to offer you stimulating experiences. All classes are clearly designated as remote or in-person.

With our focus on helping you explore a new career, upgrade your current portfolio, or prepare for certification in a new and growing field, we are certain you will find what you need here. Our classes can prepare you for a career in high-demand fields such as healthcare, information technology, or real estate.

We also offer a wide variety of remote options for lifelong learning. Explore history, crafts, and writing your memoirs-or learn guitar, piano, or acting. From learning a new language to preparing for your financial future, we have it all.

I encourage you to join other learners while taking time for yourselves during these changing times. Let Westchester Community College show you how.

Teresita B. Wisell

Vice-President, Workforce Development and Community Education

## **Introduction to The Republic of Georgia Wines**

Wines from this region are virtually unknown to the average wine drinker because they were unavailable to the rest of the world. In 2018, archaeologists found traces of winemaking on 8,000-year-old pottery shards in Georgia, and the tiny former Soviet republic claimed the crown as the world's oldest wine producer. Georgia is known by many people for kvevri wines, which are fermented, and sometimes aged, in clay vessels and often buried underground. There are dry red wines made from Saperavi and other red grapes but it's the amber wines, produced from white grapes fermented in kvevri with skins and sometimes stems, that have become Georgia's calling card. Join us for a unique flight of the wines from this region. CE-WINE 2011, Apr. 15. #18867
