Welcome to the Peekskill Center for the Digital Arts
Youth Arts Technology Program

This summer your child will be able to explore STEAM and garner skills in digital filmmaking, imaging, 2D and 3D Animation, robotics, coding, game design, and painting and drawing, and more remotely. Using distance learning our instructors will be interacting with your children live to create a robust teaching and learning experience using art and technology. The Center for Digital Arts, Peekskill Extension of Westchester Community College has professional artists and designers teaching and technical support specialists supporting students both inside the courses and available by email and Google Voice.

Our faculty is dedicated to crafting an experience that is interactive, engaging, and productive enabling skill acquisition and artistry that will allow your child to produce a portfolio piece by the end of the program. Join us for one two week session or both. Dates for this summer are July 6-16 and July 20-30, 2020. Sessions meet Monday through Thursday each week. For a full program description, please see sunywcc.edu/peekskillyouth. You may also register at sunywcc.edu/peekskill.

All registered students and their parents and guardians need to attend an orientation Zoom session prior to their first class session. You will be contacted with instructions and an invitation link.

To contact us with further questions please email peekskill@sunywcc.edu.

Thank you for your interest in the Summer Youth Arts Technology Program.
