Strategies for Running a Successful Business
Running a successful business requires having a solid foundation. An effective strategy, strong leadership skills, and maintaining employee satisfaction are all core elements and a must for business owners. The following courses are offered as a package and each is meant to build on the previous. You will get the most out of the program by taking all three courses.

A Roadmap for Growth
Every successful business requires a roadmap and a strategy plan to be sustainable over time. It requires having a set destination using SMART goals and KPIs to measure business growth. Come learn about a 7-step process that will help your business clearly define a unique value statement to build and execute the appropriate strategies needed for success. We will review how to implement a balance of technologies and resources required to execute your strategy plan.
CE-BUS 2101, 1 Wed., June 5, 6:00-8:00 pm, GTW-110, $25. C. Salem. #5871

Developing Your Leadership Skills
Leadership is an attitude and not a title. Leadership is the ability to be the example of the skills and passion you bring to your business that others can model from; thus creating an interdependent culture that brings significant growth and productivity. We will discuss the process to develop your leadership skills into a system that invigorates growth. Outcomes lead to higher retention, productivity, efficiency, and profitability.
CE-BUS 2102, 1 Wed., June 12, 6:00-8:00 pm, GTW-110, $25. C. Salem. #5873

Building a Highly Engaged Team
To build a highly engaged team, you must first have engaged employees. Sounds simple but in today’s environment of a multi-generational, multi-cultural workforce, you need to understand what compels your employees and what gives them a sense of purpose. Companies with disengaged employees experience 50% employee turnover, 20% less productivity; subpar customer service; and are 30% less profitable than companies with engaged employees. In this class, we will explore what it means to be engaged and how leaders encourage, nurture, and maintain employee engagement through creating purpose.
CE-BUS 2103, 1 Wed., June 19, 6:00-8:00 pm, GTW-110, $25. M. Callahan-Jacobson. #5872

Courses on pages 14-17 are all held at the Peekskill Extension Center.
Web Programming
This course provides the theoretical concept of web services with an overview of what is required to build a website. This includes HTML, CSS, PHP and jQuery, as well as MAMP (apache, MySQL, PHP).
This course will teach basics of building web pages using HTML. We will use all three languages:
1. HTML to define the content of web pages
2. CSS to specify the layout of web pages
3. JavaScript to program the behavior of web pages
ALL web pages created will be fully functional and portable.
In addition, we will explore server languages like PHP for dynamic web pages. Since web servers integrate several technologies to serve applications, this class covers reasonable in-depth knowledge and skills to serve design purposes. We will then use tools to do database administration and test PHP server level programs and using PHP to connect to web server and Database Server (MySQL).

NEW! Web Programming for Designers
This course provides the tools and knowledge necessary to build completely functional websites. The Wix website builder is a simplified way to create a website. Digital Matte Painting and Special Effects
This course introduces techniques for creating paintings with realistic perspective, lighting, and textures in Photoshop through a unified multi-stage project over the course of the term. Students will start by developing an understanding of different types of perspective in drawing by creating a concept sketch. Later, students will find the light and dark side of shapes to give them some form. Photographic textures will be applied to enhance the realism of the project. Students will learn color correction on the chosen reference photos and also be shown how to use them in the project. The final step will be creating the mood of the entire painting. For ages 14 & up.

Business Process Management/Business Process Improvement

Process Mapping, Modeling and Analysis
Using Process Analysis to Define & Solve Business Challenges
Organizations are a collection of processes. These processes are the business activities performed to produce value, serve customers, and generate income. Managing these processes is the key to the success of your organization. Unfortunately, most organizations are not set up to manage processes. Instead, they manage tasks. Inefficiency and waste become part of the system. They rob your organization of profits, productivity and its competitive advantage. Process mapping shows you the way out. 13 PDHours awarded.
CE-BUS 2105, 2 Tues., May 14 & 21, 9:00 am-4:30 pm, $995. #5864

Lean Healthcare
Transforming Processes to Deliver Patient Value
The goal of Lean is to eliminate inefficiencies to deliver value to its customers (patients). There is arguably no industry in which this methodology is more applicable and valuable than in healthcare. Patients sometimes wait weeks for needed clinic appointments. Inconsistencies in the verification of insurance can result in delays in adding new providers. Variation in procedure times between surgeons causes underutilization in the OR. The Lean methodology is tailor-made to address today’s operational challenges. 6.5 PDHours awarded.
CE-HCARE 2067, 1 Wed., July 10, 9:00 am-4:30 pm, $495. #5865

Process Improvement in the Public Sector
How to Deliver More Services with Less Budget
According to the United Nations, governments all over the world are under pressure to reduce the size of the government while at the same time improving their overall performance. Citizens, however, do not necessarily ask for either smaller or bigger government, but rather better government. How can your agency or department fulfill its mission under the ongoing pressure to do more with less? Two activities are critical: targeting the right resources to support the right services for your citizens and executing operations with minimal waste of time or energy. 6.5 PDHours awarded.
CE-BUS 2099, 1 Wed., Aug. 21, 9:00 am-4:30 pm, $495. #5866

Communicating Through the Written Word: Applying Effective Writing Skills to Business
To succeed in business today one must be able to write clearly, correctly and concisely and should be able to master all aspects of writing. This includes business letters, memos, informal reports, executive summaries, proposals, as well as social media and website copy. Professional credibility can be built or destroyed by the written work that goes out from an office. Regardless of the advances in technology, good writing is the key to effective communication and being able to produce clearly written communication is a skill that is not only desirable but also essential. Participants will focus on writing clear, concise and effective copy. CE-BUS 2107, 4 Mon., June 3-24, 6:00-8:30 pm, Room TBD, $195. L Geraci-Miranda. #5867

Writing Public Relations Copy: Communicating Effectively Through Public Relations
Public relations writers have to communicate effectively to all audiences. They must be equipped with the essential skills for developing and writing materials that include news releases, advisories, backgrounders, social media, newsletter and magazine articles. Participants will focus on writing clear, concise and effective copy and apply it towards successful public relations writing.
CE-BUS 2106, 4 Wed., June 5-26, 6:00-8:30 pm, Room TBD, $195. L Geraci-Miranda. #5868
THE WRITING CENTER

The Art of the Personal Essay
All great writers at some point in their career attempt to construct a personal narrative. The form provides an opportunity to explore one’s ideas without too strict of a structure. The personal essay is open to various approaches and provides virtually an unlimited breadth of possibilities for self-discovery. In this class, we will do a quick exploration and even make our own attempts at constructing such an essay.

CE-WRITG 2109, 3 Tues., July 9-23, 6:00-9:00 pm, KNC-4, $75. S Cameron. #5845

Writing from the Soul
Writing is an art form about self-expression. Whether you prefer fiction or nonfiction, journal writing or story writing, this course will help unleash your creativity as a writer with a focus on writing descriptive narratives. Using your five senses, learn to create an emotion and a picture in the reader’s mind. Develop a scene in your story or recall a memory you have entered in your journals. Students will share their work with the class. Please bring spiral notebooks or journals, and pens.

LEARNING CAMPS FOR KIDS & TEENS

YOUTH ARTS TECHNOLOGY PROGRAM AT PEEKSKILL
The Peekskill Center is located at 27 N. Division Street. Please call 914-606-7300 to register.

Students may register for one or more classes for their age group. All classes meet Mon.-Thurs. For complete course descriptions, visit our website at www.sunywcc.edu/CE/summercamps

The Youth Arts Technology program is a STEAM program (see steamtosteam.org) focused on engaging youth in arts technology integration that will better prepare them for advanced study and work in the 21st century. STEAM (Science, Technology, Engineering, Art, and Mathematics) focuses on the hybridization of art and science and develops critical creative thinking. These courses are designed to encourage self-expression, collaboration, and innovation. Students will combine manual and digital skills to realize a take-away portfolio project.

Digital Art Classes for Teens: Ages 12-17
Classes meet Monday through Thursday
4-hour Game Design and 3D Animation with a ½ lunch break are $218 (+ $50 lab fee)

The English Language Institute, located in the Gateway Center, offers English as a Second Language (ESL) classes to meet the needs of learners entering the program at any level, from beginner to advanced. Level is determined by placement exam. Registration begins at the English Language Institute in the Gateway Center, Rm. 243. The Institute is open Mon.-Thurs, 9:00 am-8:00 pm, Fri. 9:00 am-6:00 pm, and Sat., 9:00 am-3:30 pm. Registration instructions are on page 38.

GENERAL MULTI-LEVEL ESL
INTENSIVE (5-DAY) SATURDAY (ALL DAY) EVENING (2-DAY)
Six levels of ESL instruction are offered. Each level provides balanced instruction and active practice in all English language skills: listening, speaking (including pronunciation), standard grammar, reading, and writing. New students take an examination to determine the level at which they begin study. Our English-only environment for all activities promotes maximum learning. These courses serve the needs of the general learner and learners specifically preparing for college/university study. Instructors are professionals in TESOL (Teaching English to Speakers of Other Languages). Our courses are also offered in Fall (Sept.-Aug.) and Spring (Jan.-Apr.).

INTENSIVE ENGLISH PROGRAM
5 days, Mon.-Fri. This 15-hour per week course (20 hrs/week for F-1 students) allows motivated learners of English to advance rapidly, starting at any level from beginner to advanced. The Intensive English Program meets the needs of serious learners, such as preparation for university study or to increase career possibilities. All students take three classes: Intensive Grammar & Reading 2 days per week (M/Th), Intensive Listening, Speaking & Pronunciation 2 days per week (T/F) and Intensive Writing 1 day per week (W). A placement test is required of all new students. Accent on Fluency, open to all IEP students, supplements the Intensive English Program with an additional 5 hours per week of instruction and practice in one or more particular skill or content areas. Students who have F-1 status (have an I-20 form) meet the full-time study requirement by also enrolling in the Accent on Fluency class.

You can also register in person at Yonkers (Cross County), Ossining, Peekskill, or Mount Vernon with debit or credit card or money order; cash is not accepted at these locations.

PLACEMENT TEST (to determine your English level): Testing is required if you are new to our program or did not take the ESL final test in Summer of Fall 2018. Placement test is given at the first session of all programs with levels and certain other courses. You must register before taking the test. Testing information, location and appointments are provided when you register.

English Language Institute Office: Gateway Center, Room 243 Info: 914-606-6656 or ESL@sunywcc.edu

Would You Like to Begin a College Degree or Certificate Program?
If you have completed or are now completing ELI level 5 (or have an equivalent level of English proficiency) and are considering enrolling in a college/university program, call the ELI at 914-606-7889 to make an appointment with a TESOL specialist to discuss your future studies. We will help you answer the question: Am I ready for college? We will evaluate your English language ability and, if appropriate, provide a referral necessary for entrance to the college. Even if you are not completely ready for college, you may be able to begin a certificate or degree program while you continue improving your English. In addition to our general ESL programs, we have specialized ESL courses which have helped many ESL learners succeed in college and achieve their academic goals.
