Afternoon Session / 12:00 pm - 12:45 pm - [Zoom Link - Click Here](#)

Evening Session / 7:00 pm - 7:45 pm - [Zoom Link - Click Here](#)

Learn about the MSSC Certified Production Technician 4.0 Program (CPT 4.0)
Earn Industry Recognized Certifications

This program is ideal for individuals with limited to no prior knowledge of manufacturing to begin a career pathway in the high skill, high wage and in demand manufacturing industry.

The CPT 4.0 program consists of four individual modules and certificate assessments. Participants can earn certification for each module successfully completed and passing the exam. A full Certified Production Technician (CPT 4.0) Certificate is awarded to those who pass all four modules. This 6 month program is being offered as a hybrid course consisting of self-paced, self-directed and online virtual, and instructor-led training.

CPT 4.0 Modules:

- Safety
- Quality Practices & Measurement
- Manufacturing Processes & Production
- Maintenance Awareness

WCC Advanced Manufacturing Lab - TECH Bldg.
Valhalla Campus
